What are the Key Risks?

The value of shares in the Fund and income received from it can go down as well as up and investors may not get back the full amount invested.

Performance may also be affected by currency fluctuations. Currency fluctuations may affect the value of overseas investments.

The Fund invests mainly in equity and equity-related securities of companies of any market capitalisation located in or doing significant business in European countries. Such securities have historically been subject to significant price movements that may occur suddenly due to market or company-specific factors. As a result, the performance of the Fund can fluctuate considerably over time.

Other significant risks include: currency risk, credit risk, liquidity risk.

For full details of all of the risks applicable to this Fund, please refer to the "Risk Considerations" section of the Fund in the current prospectus of Franklin Templeton Investment Funds.

Glossary

Estimated 3-5 Yr EPS Growth: An estimated measure of the growth of earnings per share over a forward-looking period. For a portfolio, the value represents a weighted average of the stocks it holds.

Historical 3 Yr Sales Growth: The rate at which sales have increased for the fund's underlying holdings over the last three years.

P/E to Growth: A ratio used to determine a stock's value while taking into account earnings growth. For a portfolio, the value represents a weighted average of the stocks it holds.

Price to Earnings (12-mo Forward): A measure of the price to earnings ratio for a stock using the forecasted earnings for the next 12 months. For a portfolio, the value represents a weighted average of the stocks it holds.

Standard Deviation: A measure of the degree to which a fund's return varies from the average of its previous returns. The larger the standard deviation, the greater the likelihood (and risk) that a fund's performance will fluctuate from the average return.
