

Franklin Diversified Balanced Fund

A (Ydis) EUR: LU1147469677

Target Risk | Factsheet as of 30 September 2025

This is a marketing communication. Please refer to the relevant offering documents before making any final investment decisions.

Investment Overview

To seek to maximise income and growth of capital (total return), while maintaining a moderate volatility. Specifically, the Fund aims to maintain an annualised fluctuation (volatility) of its net asset value between 5% and 8% (not guaranteed). The Fund mainly invests, directly or indirectly through derivatives and other Funds, in equities (up to 75% of assets), bonds and other asset classes, such as real estate and commodities. These investments may be of any market capitalisation and from anywhere in the world, including emerging markets, and some of the bond investments may be below investment grade.

Past performance does not predict future returns.

Performance Over 5 Years in Share Class Currency (%)

Charges

Maximum Initial Charge	5.00%
Exit Charge	—
Ongoing Charges Figure	1.64%
Performance Fee	—

The charges are the fees the Fund charges to investors to cover the costs of running the Fund. Additional costs, including transaction fees, will also be incurred. These costs are paid out by the Fund, which will impact on the overall return of the Fund. Fund charges will be incurred in multiple currencies, meaning that payments may increase or decrease as a result of currency exchange fluctuations.

What are the Risks?

The value of shares in the Fund and income received from it can go down as well as up and investors may not get back the full amount invested. **Credit risk:** the risk of loss arising from default that may occur if an issuer fails to make principal or interest payments when due. This risk is higher if the Fund holds low-rated, sub-investment-grade securities. **Derivative Instruments risk:** the risk of loss in an instrument where a small change in the value of the underlying investment may have a larger impact on the value of such instrument. Derivatives may involve additional liquidity, credit and counterparty risks. **Foreign Currency risk:** the risk of loss arising from exchange-rate fluctuations or due to exchange control regulations. Complete information on the risks of investing in the Fund are set out in the Fund's prospectus.

Glossary

Ongoing Charges Figure (OCF): The Ongoing Charges Figure (OCF) includes the fees paid to the management company, the investment manager and the depository, as well as certain other expenses. The OCF is calculated by taking the relevant main material costs paid out over the 12-month period indicated and dividing them by the average net assets over the same period. The OCF does not include all expenses paid by the fund (for example, it does not include what the fund pays for buying and selling securities). For a comprehensive list of the types of costs deducted from fund assets, see the prospectus. For recent all-in annual costs, see the relevant offering documents. **Comparator:** Benchmark is used for comparing Fund performance, but is not a constraint to Fund Investment. **Average Credit Quality:** The average credit quality reflects the holdings of the underlying issues, based on the size of each holding and ratings assigned to each based on rating agency assessments of its creditworthiness. **Weighted Average Maturity:** An estimate of the number of years to maturity, taking the possibility of early payments into account, for the underlying holdings. **Effective Duration** is a duration calculation for bonds with embedded options. Effective duration takes into account that expected cash flows will fluctuate as interest rates change. Duration measures the sensitivity of price (the value of principal) of a fixed-income investment to a change in interest rates. The higher the duration number, the more sensitive a fixed-income investment will be to interest rate changes. **Standard Deviation:** Measure of the degree to which a fund's return varies from the average of its previous returns. The larger the standard deviation, the greater the likelihood (and risk) that a fund's performance will fluctuate from the average return.

Portfolio Data Information

Holdings are provided for information purposes only and should not be deemed a recommendation to buy or sell the securities mentioned. **Credit Quality** is a measure of a bond issuer's ability to repay interest and principal in a timely manner. The credit ratings shown are based on each portfolio security's rating as provided by Standard and Poor's, Moody's Investors Service and/or Fitch Ratings, Ltd. and typically range from AAA (highest) to D (lowest), or an equivalent and/or similar rating. For this purpose, the manager assigns each security the middle rating from these three agencies. When only two agencies provide ratings, the lower of the two ratings will be assigned. When only one agency assigns a rating, that rating will be used. Foreign government bonds without a specific rating are assigned a country rating, if available. Securities that are unrated by all three agencies are reflected as such. The credit quality of the investments in the Fund's portfolio does not apply to the stability or safety of the Fund. These ratings are updated monthly and may change over time. **Please note, the Fund itself has not been rated by an independent rating agency.**

The Fund may use or invest in financial derivatives.

Exposure: Notional exposure figures are estimated and are intended to show the portfolio's direct exposure to securities and indirect exposure, through derivatives. Direct and indirect exposures are subject to change over time and methodologies for calculating indirect exposures vary by derivative type. Portfolio breakdown percentages may not total 100% and may be negative due to rounding, use of derivatives, unsettled trades or other factors.

Important Information

This fund meets the requirements under Article 8 of the EU Sustainable Finance Disclosure Regulation (SFDR); the fund has binding commitments in its investment policy to promote environmental and/or social characteristics and any companies in which it invests should follow good governance practices.

This material is intended to be of general interest only and should not be construed as investment advice. It does not constitute legal or tax advice and it is not an offer for shares or an invitation to apply for shares of the Luxembourg-domiciled SICAV Franklin Templeton Investment Funds (the "Fund" or "FTIF"). For the avoidance of doubt, if you make a decision to invest, you will be buying units/shares in the fund and will not be investing directly in the underlying assets of the fund.

Franklin Templeton ("FT") provides no guarantee or assurance that the Fund's investment objective will be attained. The value of shares in the Fund and income received from it can go down as well as up, and investors may not get back the full amount invested. **Past performance is not necessarily indicative nor a guarantee of future performance of the Fund.** Currency fluctuations may cause the value of a Fund's investments to diminish or increase.

FT shall not be liable to any user of this document or to any other person or entity for the inaccuracy of information or any errors or omissions in its contents, regardless of the cause of such inaccuracy, error or omission. Any opinions expressed are the author's at publication date and they are subject to change without prior notice. Any research and analysis contained in this material has been procured by FT for its own purposes and is provided to you only incidentally. Data from third party sources may have been used in the preparation of this document and FT has not independently verified, validated or audited such data.

No shares of the Fund may be directly or indirectly offered or sold to residents of the United States of America. Shares of the Fund are not available for public distribution in all jurisdictions and prospective investors, who are not financial professionals, should consult their financial advisor before deciding to invest. The Fund may use financial derivatives or other instruments which may entail specific risks more fully described in the Fund's Documents.

Subscriptions to shares of the Fund should only be made on the basis of the Fund's current Prospectus, and, where available, the relevant offering documents.

In addition, a Summary of Investor Rights is available from <https://www.franklintempleton.com.sg/summary-of-investors-rights.pdf>. The summary is available in English.

The sub-funds of FTIF are notified for marketing in multiple EU Member States under the UCITS Directive. FTIF can terminate such notifications for any share class and/or sub-fund at any time by using the process contained in Article 93a of the UCITS Directive.

This advertisement or publication has not been reviewed by the Monetary Authority of Singapore.

Investors may wish to seek advice from a financial adviser before making a commitment to invest in shares of the Fund. In the event an investor chooses not to seek advice from a financial adviser, he/she should consider whether the Fund is suitable for him/her.
