PRODUCT SUITABILITY

WHO IS THE PRODUCT SUITABLE FOR?

The Fund is only suitable for investors who:

- seek capital appreciation;
- seek to invest in securities across sectors or market capitalisation ranges capable of outperforming the markets through economic cycles in all investible markets globally; and
- plan to hold their investment for the medium to long term.

The principal may be at risk.

Further Information

Please refer to "Fund Information, Objectives and Investment Policies" of the Luxembourg Prospectus.

KEY PRODUCT FEATURES

WHAT ARE YOU INVESTING IN?

- You are investing in an open-ended collective investment scheme (referred to as an "undertaking for collective investment in transferable securities" or UCITS) constituted in Luxembourg that aims to provide you with capital appreciation by investing in securities across sectors or market capitalisation ranges capable of outperforming the markets through economic cycles in all investible markets globally.
- It is anticipated that under normal circumstances, you will receive, in the case of investments in distribution share classes, regular distributions out of income depending on the distribution share classes you are investing in. Subject to any legal or regulatory requirements, distributions may also be made out of the capital of the Fund. Where distributions are made out of capital, it will result in a reduction in the net asset value of the Fund.

Refer to "Investment Objective, Focus and Approach of the Funds" section of the Singapore Prospectus, and the "Dividend Policy" section of the Luxembourg Prospectus.

Investment Strategy

- The Fund will invest in equity and equity-related securities of companies located in any country, including emerging and frontier markets.
- It may also invest in shares of other mutual funds (limited to 10% of its net assets).
- The Fund can use derivatives for hedging and efficient portfolio management.
- The Fund may invest up to 10% of its net assets in aggregate in China A-Shares (through Shanghai-Hong Kong or Shenzhen-Hong Kong Stock Connect) and in China B-Shares.

Refer to "Investment Objective, Focus and Approach of the Funds" section of the Singapore Prospectus.

¹The Prospectus (comprising the Singapore and Luxembourg Prospectuses) is available for collection from the office of Templeton Asset Management Ltd at 7 Temasek Boulevard, #38-03 Suntec Tower One, Singapore 038987 and its appointed distributors during business hours, or accessible at www.franklintempleton.com.sg.

[^]The Franklin Global Growth Fund and Franklin Global Equity Strategies Fund will merge into the Franklin World Perspectives Fund on 19 January 2018, or such other date as the Board may decide.

- The custodian is J.P. Morgan Bank Luxembourg S.A.
- The Singapore representative is Templeton Asset Management Ltd.

Refer to “Management and Administration” section of the Singapore Prospectus.

KEY RISKS**WHAT ARE THE KEY RISKS OF THIS INVESTMENT?**

The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment.

Refer to “Risk Factors” section of the Singapore Prospectus and “Risk Considerations” section of the Luxembourg Prospectus.

Market and Credit Risks**Your investments are subject to global equity market risks.**

- Your investments in equity and equity-related securities may be subject to significant price movements due to the impact of economic, political, market, and issuer-specific factors globally.

You are exposed to both developed and emerging markets.

- Emerging markets tend to be smaller and less liquid than developed markets as well as being more sensitive to economic, political and regulatory uncertainties.

You are exposed to the risks of investing in frontier markets.

- Investments in emerging markets involve special risks, including currency fluctuations and economic and political uncertainties. Frontier markets are even smaller, less developed, and less accessible than emerging markets, and as a result carry additional risks.

Your investments are subject to currency movements risks.

- Since the securities held by the Fund may be denominated in currencies different from its base currency, your investments may be affected favourably or unfavourably by exchange control regulations or changes in exchange rates.

Liquidity Risks**Fund liquidity may be affected during exceptional circumstances.**

- The Fund may not be able to easily sell securities during an economic event or due to deterioration in the creditworthiness of issuers in which it invests.
- Shares of the Fund may be redeemed on any Dealing Day. However, during a period when trading on relevant exchanges or the over-the-counter market is substantially restricted or when market conditions make it impracticable to dispose of or value any of the Fund's investments, redemption of the Shares may be suspended.
- Redemptions of Shares may be deferred when more than 10% of the value of the Fund's Shares are redeemed or exchanged on any one Dealing Day.

Refer to the sections “Sale of Shares” and “Suspension of Valuation, Issue, Sale and Switching of Shares” of the Singapore Prospectus.

The Fund is not listed.

- There is no secondary market for the Fund. All redemption requests should be made to the Singapore representative, either directly or through the financial advisor or distributor from whom you purchased the Fund.

Product-Specific Risks**You are exposed to derivatives risk.**

- The Fund may invest in participatory notes and in derivatives such as equity-linked notes, futures, and forwards, as well as options on such contracts, dealt on either regulated markets or over-the-counter.

You are exposed to counterparty risk.

- When entering into over-the-counter bilateral contracts for financial derivatives used for hedging purposes or for efficient portfolio management, the Fund may find itself exposed to risks arising from the solvency of its counterparties and from their ability to respect the conditions of these contracts.

You are exposed to non-regulated markets.

- The Fund may invest in markets which do not qualify as regulated due to their economic, legal, or regulatory structure, thereby exposing the Fund to a greater degree of risk.

You are exposed to multi-manager risk.

- The Fund seeks to achieve its objective by using two or more managers. There is the risk that the managers will not effectively implement the investment strategy for which they were selected and that one manager could be selling a security that another is purchasing, causing transactions costs to be higher unnecessarily.

VALUATIONS AND EXITING FROM THIS INVESTMENT

HOW OFTEN ARE VALUATIONS AVAILABLE?

- Daily valuations are available on Dealing Days, which refer to days which are both Valuation Days and Singapore Business Days (as defined below), or otherwise as the Directors may from time to time determine.
- A “Valuation Day” is a day on which NYSE is open or banks in Luxembourg are open for business, other than during suspensions of normal trading. A “Singapore Business Day” is a day (except Saturdays, Sundays and public holidays) on which commercial banks are open for business in Singapore.
- The indicative net asset value (NAV) and actual NAV per share of each Fund and Share Class may be obtained from the Singapore representative and will be published on the Singapore representative’s website (www.franklintempleton.com.sg) one Singapore Business Day after the relevant Dealing Day.

Refer to the “Purchase of Shares”, “Sale of Shares” and “Obtaining Price Information” sections of the Singapore Prospectus.

²Based on the lesser of the value of Shares being sold (exclusive of reinvested dividends) or the total cost of Shares when purchased

³Payable to principal distributor, based on the applicable average net asset value

⁴Payable to custodian, registrar and transfer, corporate, domiciliary and administrative agent (as applicable)

VALUATIONS AND EXITING FROM THIS INVESTMENT

HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

- To exit the Fund you should complete the relevant sale form, together with such other documents as may be required and submit it to the Singapore representative or through the financial advisor or distributor from whom you purchased the Fund, the Internet or any other sales channels, if applicable. Please ensure that all relevant documents have been submitted.
- Some appointed distributors may offer a cancellation policy whereby you will not incur the sales charges if you sell during the relevant period (the Fund does not offer such cancellation policy). You will however take the risk of a decline in the Fund's NAV since you purchased it and certain administrative fees may apply.
- Sale proceeds will be paid within three Singapore Business Days following the Dealing Day of the receipt and acceptance of the sale request.
- Your exit price is determined as follows:
 - If the Singapore representative receives and accepts the sale request on or before 4 p.m. on a Dealing Day, you will be paid a price based on the net asset value of the Shares applicable on that day.
 - If the Singapore representative receives and accepts the sale request after 4 p.m. on a Dealing Day, you will be paid a price based on the net asset value of the Shares at the close of the next Dealing Day.
- The sales proceeds that you will receive will be the exit price multiplied by the number of shares sold, less any charges. The following illustrates the sales proceeds on a sale of 1,000 Class A SGD share class shares at an exit price of S\$12.50 and assuming no Contingent Deferred Sales Charge:

Exit price x Number of shares sold	=	Gross Sales Proceeds
S\$12.50 x 1,000	=	S\$12,500

Gross Sales Proceeds – Exit Charges	=	Net Sales Proceeds
S\$12,500 – S\$0.00	=	S\$12,500
