The principal may be at risk.

Further Information

Refer to “Fund Information, Objectives and Investment Policies” of the Luxembourg Prospectus.

KEY PRODUCT FEATURES

WHAT ARE YOU INVESTING IN?

- You are investing in an open-ended collective investment scheme constituted in Luxembourg as a UCITS that aims to provide you with interest income and capital appreciation by investing in a diversified global debt product.
- Under normal circumstances, you will receive regular distributions out of income depending on the distribution share classes you are investing in. Any distributions may also be made out of the capital of the Fund. Where distributions are made out of capital, it will result in a reduction in the net asset value of the Fund.

Refer to “Investment Objective, Focus and Approach of the Funds” section of the Singapore Prospectus, and the “Dividend Policy” section of the Luxembourg Prospectus.

Investment Strategy

- The Fund will invest principally in debt securities issued by governments, government-related entities and corporations located in any country.
- It may also invest, amongst others, in (i) non-investment grade debt securities (limited to 10% of assets), or (ii) emerging market debt securities; or (iii) credit-linked securities or other structured products (such as mortgage- and asset-backed securities, including collateralised debt obligations).
- The Fund may also participate in mortgage dollar roll transactions.
- The Fund can use derivatives for hedging, efficient portfolio management and/or investment purposes (limited to 40% of the Fund's net assets).
- The Fund may invest up to 10% of its net assets in Mainland China, either directly or through Bond Connect

Refer to “Investment Objective, Focus and Approach of Funds” section of the Singapore Prospectus.

Parties Involved

¹ The Prospectus is available for collection of Templeton Asset Management Ltd at 7 Temasek Boulevard , # 38-03 Suntec Tower One , Singapore 038987 and its appointed distributors during business hours, or accessible at www.franklintempleton.com.sg

<p>WHO YOU ARE INVESTING WITH?</p> <ul style="list-style-type: none"> • The investment company is Franklin Templeton Investment Funds. • The investment managers are Franklin Templeton Investment Management Limited and Franklin Advisers, Inc. • The management company is Franklin Templeton International Services S.à r.l. • The custodian is J.P. Morgan Bank Luxembourg S.A. • The Singapore representative is Templeton Asset Management Ltd. 	<p>Refer to “Management and Administration” section of the Singapore Prospectus for more information on the role and responsibilities of these entities and what happens if they become insolvent.</p>
KEY RISKS	
<p>WHAT ARE THE KEY RISKS OF THIS INVESTMENT? The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment.</p>	<p>Refer to the “Risk Factors” section of the Singapore Prospectus and “Risk Considerations” section of the Luxembourg Prospectus.</p>
Market and Credit Risks	
<p>You are exposed to both developed and emerging markets.</p> <ul style="list-style-type: none"> • Emerging markets tend to be smaller and less liquid than developed markets as well as being more sensitive to economic, political and regulatory uncertainties. <p>You are exposed to credit risks of issuers.</p> <ul style="list-style-type: none"> • If an issuer fails to make principal and interest payments when due, the value of your investment in such issuers will be adversely affected. The Fund invests in a mix of government and corporate securities where there is generally less risk of default for government securities than for corporate securities. • The Fund may invest in low-rated, unrated or non-investment grade debt securities or instruments. Such investments may fluctuate significantly, more so than investment grade securities, and there is a greater likelihood that the issuer may default, subjecting your investment to losses. 	
Liquidity Risks	
<p>Your investments are exposed to liquidity risks of the underlying investments.</p> <ul style="list-style-type: none"> • Under exceptional market conditions the manager may be forced to sell assets of the fund at a discount in order to meet continued redemption requests. <p>The Fund is not listed, and you can realize your units only on Dealing Days.</p> <ul style="list-style-type: none"> • There is no secondary market for the Fund. All redemption requests should be submitted in the manner set out in the Prospectus. <p>Your realization request may be deferred or suspended.</p> <ul style="list-style-type: none"> • Redemptions of Shares may be deferred when more than 10% of the value of the Fund’s Shares are redeemed or exchanged on any one Dealing Day. Your right to realize units may also be temporarily suspended under certain circumstances as described in the Prospectus. 	<p>Refer to the sections “Sale of Shares” and “Suspension of Valuation, Issue, Sale and Switching of Shares” of the Singapore Prospectus.</p>
Product-Specific Risks	
<p>You are exposed to derivatives risk.</p> <ul style="list-style-type: none"> • The Fund may invest in derivatives which may be purchased on regulated markets or over-the-counter and may have less liquidity than conventional assets, exposing the Fund to higher risks and potential losses. • The Fund may invest in structured products and derivatives such as credit-linked securities, credit default swaps, total return swaps, interest rate, index or foreign exchange swaps, futures, forwards, and options, all of which are subject to significant liquidity and counterparty risks. <p>Your investments are subject to prepayment and extension risk.</p> <ul style="list-style-type: none"> • With mortgage- and asset-backed securities, principal is paid back over the life of the security rather than at maturity. Such securities are subject to prepayment risk, when interest rates fall, resulting in a shortening of maturities and foregone future interest payments, as well as to extension risk when interest rates rise, resulting in longer maturities and greater sensitivity to changes in interest rates. <p>You are exposed to collateralized debt obligations risk.</p> <ul style="list-style-type: none"> • Collateralized debt obligations are securities backed by a pool of assets where there is the risk that the underlying securities may not make interest or principal payment, may decline in value, or may be subordinate to other classes of securities that have priority as to payment, causing the value of the CDOs to decline.
