KEY PRODUCT FEATURES

WHAT ARE YOU INVESTING IN?

- You are investing in an open-ended collective investment scheme (referred to as an "undertaking for collective investment in transferable securities" or UCITS) constituted in Luxembourg that aims to provide you with capital appreciation and to a lesser extent, income by investing in undervalued companies based primarily in the US.
- It is anticipated that under normal circumstances, you will receive, in the case of investments in distribution share classes, regular distributions out of income depending on the distribution share classes you are investing in. Subject to any legal or regulatory requirements, distributions may also be made out of the capital of the Fund. Where distributions are made out of capital, it will result in a reduction in the net asset value of the Fund.

Refer to "Investment Objective, Focus and Approach of the Funds" section of the Singapore Prospectus, and the "Dividend Policy" section of the Luxembourg Prospectus.

Investment Strategy

- The Fund will invest principally in equity and equity-related securities of US companies. At least 70% of the Fund's net assets will be invested in securities of US issuers.
- It may also invest, amongst others, in (i) securities of companies involved in mergers, consolidations, liquidations and reorganization, or (ii) debt securities of companies involved in reorganization or financial restructuring, including low-rated and noninvestment grade securities.
- The Fund can use derivatives for hedging and/or efficient portfolio management.
- The Fund may engage in securities lending transactions amounting to 5% to up to 50% of its net assets.

Refer to "Investment Objective, Focus and Approach of the Funds" section of the Singapore Prospectus.

The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment.

Refer to "Risk Factors" section of the Singapore Prospectus and "Risk Considerations" section of the Luxembourg Prospectus.

Market and Credit Risks**Your investments primarily in the U.S. are subject to equity market risks.**

- Your investments primarily in U.S. equity and equity related securities may be subject to significant price movements due to the impact of economic, political, market, and issuer-specific factors.

Your investments are subject to currency movements risks.

- Since the securities held by the Fund may be denominated in currencies different from its base currency, your investments may be affected favourably or unfavourably by exchange control regulations or changes in exchange rates.

Liquidity Risks**Fund liquidity may be affected during exceptional circumstances.**

- The Fund may not be able to easily sell securities during an economic event or due to deterioration in the creditworthiness of issuers in which it invests.
- Shares of the Fund may be redeemed on any Dealing Day. However, during a period when trading on relevant exchanges or the over-the-counter market is substantially restricted or when market conditions make it impracticable to dispose of or value any of the Fund's investments, redemption of the Shares may be suspended.
- Redemptions of Shares may be deferred when more than 10% of the value of the Fund's Shares are redeemed or exchanged on any one Dealing Day.

Product-Specific Risks**You are exposed to restructuring companies ("event") risk.**

- The Fund invests in the securities of restructuring companies related to mergers, consolidations, liquidations and reorganizations, which involves greater credit risks and the possibility that the "event" may not turn out as expected, exposing the Fund to potential losses.

You are exposed to derivatives risk.

- The Fund may invest in derivatives which may be purchased on regulated markets or over-the-counter and may have less liquidity than conventional assets, exposing the Fund to higher risks and potential losses.

VALUATIONS AND EXITING FROM THIS INVESTMENT

HOW OFTEN ARE VALUATIONS AVAILABLE?

- Daily valuations are available on Dealing Days, which refer to days which are both Valuation Days and Singapore Business Days (as defined below), or otherwise as the Directors may from time to time determine.
- A “Valuation Day” is a day on which NYSE is open or banks in Luxembourg are open for business, other than during suspensions of normal trading. A “Singapore Business Day” is a day (except Saturdays, Sundays and public holidays) on which commercial banks are open for business in Singapore.
- The indicative net asset value (NAV) and actual NAV per share of each Fund and Share Class may be obtained from the Singapore representative and will be published on the Singapore representative’s website (www.franklintempleton.com.sg) one Singapore Business Day after the relevant Dealing Day.

Refer to the “Purchase of Shares”, “Sale of Shares” and “Obtaining Price Information” sections of the Singapore Prospectus.

VALUATIONS AND EXITING FROM THIS INVESTMENT

HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

- To exit the Fund you should complete the relevant sale form, together with such other documents as may be required and submit it to the Singapore representative or through the financial advisor or distributor from whom you purchased the Fund, the Internet or any other sales channels, if applicable. Please ensure that all relevant documents have been submitted.
- Please note that sale of Class B and C shares may be subject to exit charges.
- Some appointed distributors may offer a cancellation policy whereby you will not incur the sales charges if you sell during the relevant period (the Fund does not offer such cancellation policy). You will however take the risk of a decline in the Fund’s NAV since you purchased it and certain administrative fees may apply.
- Sale proceeds will be paid within three Singapore Business Days following the Dealing Day of the receipt and acceptance of the sale request. Sale proceeds from investments using SRS monies will be returned to your SRS account.
- Your exit price is determined as follows:
 - If the Singapore representative receives and accepts the sale request on or before 4 p.m. on a Dealing Day, you will be paid a price based on the net asset value of the Shares applicable on that day.
 - If the Singapore representative receives and accepts the sale request after 4 p.m. on a Dealing Day, you will be paid a price based on the net asset value of the Shares at the close of the next Dealing Day.
- The sales proceeds that you will receive will be the exit price multiplied by the number of shares sold, less any charges. The following illustrates the sales proceeds on a sale of 1,000 Class A SGD share class shares at an exit price of S\$12.50 and assuming no Contingent Deferred Sales Charge:

Exit price x Number of shares sold	=	Gross Sales Proceeds
S\$12.50 x 1,000	=	S\$12,500

Gross Sales Proceeds – Exit Charges	=	Net Sales Proceeds
S\$12,500 – S\$0.00	=	S\$12,500
