PRODUCT SUITABILITY

KEY PRODUCT FEATURES

WHO IS THE PRODUCT SUITABLE FOR?

- The Fund is only suitable for investors who:
 - o are looking to invest in a fund that is seeking long-term capital growth;
 - o are willing to accept fluctuations (sometimes significant) in the net asset value per share of the Fund during the short term.

You should consult your financial advisers if you are in doubt whether this product is suitable for you.

WHAT ARE YOU INVESTING IN?

- You are investing in a sub-fund of the Franklin Templeton Global Funds Plc, an
 open-ended investment company with variable capital organised under the laws
 of Ireland as a public limited company pursuant to the Companies Acts and the
 UCITS Regulations, that aims to produce long-term capital growth by investing at
 least 80% of its net asset value in equity securities.
- If you invest in a distributing class, you may receive distributions at the frequency indicated in the name of the distributing class.
- Distributions will reduce the net asset value per share of the share class.

Refer to the "Investment Objectives and Policies and Product Suitability – Product Suitability" section in Paragraph 5.7 of the Prospectus for further information on product suitability.

Further Information

"The Refer the to Company", "The Funds -Share Classes" and "Investment Objectives and Policies and Product Suitability" sections Paragraphs 1, 2.4 and 5.1 of the Prospectus for information further features of the product.

Investment Strategy

- The Fund invests at least 80% of its net asset value in equity securities (including warrants) that are listed or traded on a Regulated Market, where the issuer of the equity is domiciled in or derives a predominant portion of their revenue from a country that is included in the MSCI Emerging Markets Index, or the Regulated Market on which the equity is listed or traded, is located in a country that is included in the MSCI Emerging Markets Index.
- The Fund's investments in equities may be made directly or indirectly through equity-related securities (including up to 15% of the Fund's net asset value in American Depositary Receipts or Global Depositary Receipts) or long positions in

Refer to the "Investment Objectives and Policies and Product Suitability" section in Paragraph 5.1 of the Prospectus for further information on the investment strategy of the product.

derivatives on equities and equity-related securities.

- The Investment Manager assesses ESG factors/characteristics both quantitatively and qualitatively, through their proprietary ESG rating system and its direct research and engagement process. The Investment Manager applies its ESG process to 100% of the portfolio of the Fund.
- The Investment Manager seeks to invest in companies that can generate economic value in excess of the market's existing expectations.
- The Fund promotes environmental characteristics and is classified as an Article 8 fund pursuant to the Sustainable Finance Disclosure Regulation ((EU) 2019/2088). The investments underlying the Fund do not take into account the EU criteria for environmentally sustainable economic activities, however in line with its ESG methodology, the Fund may hold investments that seek to contribute to climate change mitigation and climate change adaptation.
- The Investment Manager expects that the Fund's portfolio will typically consist of between 40 to 60 different issuers, though the Fund may hold less than 40 issuers or more than 60 issuers.
- The Fund may invest in Chinese equities including certain eligible China A-Shares.
- The Fund's benchmark index is the MSCI Emerging Markets (Net Dividends) Index (the "Benchmark"). The Fund is actively managed. The Investment Manager seeks to have the Fund outperform the Benchmark over rolling 3-year periods (meaning over any 3-year period starting on any date since the inception of the Fund). There is no guarantee that this will be achieved. The Benchmark is also relevant in defining the geographic scope of at least 80% of the Fund's investments, and in determining the Fund's maximum exposure to Chinese equities. While many of the Fund's investments will be components of the Benchmark, the weightings of the Fund's holdings may differ materially from the weightings in the Benchmark. The Investment Manager will also invest in securities that are not included in the Benchmark. The Fund's percentage exposures to sectors and industries may differ materially from those of the Benchmark.
- The Fund may invest in certain types of derivatives for investment purposes and efficient portfolio management purposes. The Fund may be leveraged to up to 100% of its net asset value as a result of its use of derivatives. The Fund will not take any short positions.
- Due to the investment policies of the Fund, the Fund may have a particularly volatile performance.

Parties Involved

- The Manager is Franklin Templeton International Services S.à r.l., the Investment Manager is ClearBridge Investment Management Limited and the Depositary is The Bank of New York Mellon SA/NV, Dublin Branch.

Refer the Company", "Management" "The Depositary' sections in Paragraphs 1. 3 and 4.4 of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.

KEY RISKS

WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

The value of the product and its dividends or coupons (if any) may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:

Refer to the "Risk Factors" section in Paragraph 8 of the Prospectus for further information on risks of the product.

Market and Credit Risks

You are exposed to equity markets risks as this is an equity fund –
Investment in equity securities (and equity-related securities) involve risks,
including issuer, industry, market and general economic related risks, and any
adverse or perceived adverse developments in one or more of these areas could
cause a substantial decline in the value of equity securities owned by the Fund.

- You may be exposed to emerging markets risks Investments in emerging market countries poses certain risks for example risks arising from economic and political factors, limited liquidity, higher price volatility, less developed disclosure, reporting and regulatory standards and custodial and/or settlement systems.
- You may be exposed to China market risks The Fund invests in China and is subject to the risk of significant change in Chinese political, social or economic policy. Investing via Stock Connects involves additional risk.
- You are exposed to currency risks An investment in the shares of the Fund (including hedged share classes) may entail exchange rate risks. If you invest in a share class that is not denominated in SGD and your reference currency is SGD, you may be exposed to additional exchange rate risks.

Liquidity Risks

- The Fund is not listed in Singapore and you can redeem your shares only on Dealing Days There is no secondary market in Singapore for the Fund. All redemption requests may only be made in the manner described in the Prospectus.
- Your redemption request may be deferred to subsequent Dealing Days if total redemption requests on a Dealing Day exceed 10% of the Fund's shares in issue.
- You will not be able to redeem your shares during any period where redemption is suspended.

Product-Specific Risks

- You are exposed to custody and settlement risks.
- You are exposed to risk of micro, small and mid-sized company stocks —
 Investment in such securities involves special risks, among other things, higher
 price volatility and less liquidity than securities of larger companies. In addition,
 smaller companies generally are more likely to be adversely affected by poor
 economic or market conditions.
- You may be exposed to concentration risks A substantial portion of the Fund's investments may consist of securities of companies doing business in one industry or product field which could increase the potential for volatility and risk of loss, especially in periods of pronounced market volatility.
- You are exposed to derivatives risks Derivatives in general involve special
 risks and costs and may result in losses to the Fund. A liquid secondary market
 may not always exist for the Fund's derivatives positions at any time. In addition,
 over-the-counter instruments also expose the Fund to risk that a counterparty will
 not meet its obligations to the Fund which may cause the Fund to suffer a loss.
- You are exposed to sustainability risk Integration of sustainability risks in the
 investment decision process may have the effect of excluding profitable
 investments from the investment universe of the Fund and may also cause the
 Fund to sell investments that will continue to perform well.
