KEY PRODUCT FEATURES

WHAT ARE YOU INVESTING IN?

- You are investing in a sub-fund of the Franklin Templeton Global Funds Plc, an open-ended investment company with variable capital organised under the laws of Ireland as a public limited company pursuant to the Companies Acts and the UCITS Regulations, that aims to maximise total return through income and capital appreciation by investing at least 70% of its net asset value in debt securities issued by Asian issuers and in derivatives on Asian interest rates and currencies, which debt securities and derivatives are listed or traded on Regulated Markets.
- If you invest in a distributing class, you may receive distributions at the frequency indicated in the name of the distributing class.
- Distributing Plus share classes may pay distributions out of capital, which amounts to a return or withdrawal of part of an investor's original investment.
- Distributions will reduce the net asset value per share of the share class.

Refer to the "The Company", "The Funds – *Share Classes*" and "Investment Objectives and Policies and Product Suitability" sections in Paragraphs 1, 2.4 and 5.1 of the Prospectus for further information on features of the product.

Investment Strategy

- The Fund will invest at least 70% of its net asset value in debt securities issued by Asian issuers and in derivatives on Asian interest rates and currencies, which debt securities and derivatives are listed or traded on Regulated Markets.

• The Fund invests primarily in, inter alia (i) debt securities issued or guaranteed by national governments located in Asian countries; (ii) corporate debt securities issued by Asian companies; (iii) securitised participation in loans; (iv) structured notes whose underlying exposure may be to fixed income securities; (v) mortgaged-backed and asset-backed securities that are structured as debt securities; (vi) derivatives on Asian interest rates and Asian bonds concluded with highly rated Asian or global credit institutions; and (vii) Asian currencies and derivatives on those currencies. • The Fund invests in Investment Grade, below Investment Grade and unrated debt securities; however, the Fund will only purchase debt securities that are rated at least B- by S&P or its equivalent by another NRSRO or, if unrated, deemed to be of comparable quality by the Investment Manager and Sub-Investment Managers (collectively, “Western Asset”). • The Fund may invest in certain types of derivatives for efficient portfolio management purposes and/or investment purposes. • The Fund may be leveraged as a result of investment in derivatives. However, the Fund will not be leveraged in excess of 100% of its net asset value. The Fund will not take direct short positions on individual securities. • The Fund may have exposure to Reverse Repurchase Agreements for efficient portfolio management purposes. The Fund's maximum notional exposure to total return swaps and SFTs is 100% of its net asset value (expected exposure in the range of 0% to 20% of its net asset value). • Western Asset expects to invest the Fund's portfolio in debt securities of issuers located in several different Asian countries, but may, when opportunities arise to further the Fund's investment objective, invest in securities of issuers located in a relatively small number of Asian countries. Western Asset may also invest in any number of issuers, or may at times concentrate its assets in the securities of a small number of issuers. • Western Asset may take full advantage of the entire range of maturities and durations when purchasing debt securities for the Fund, and may adjust the average duration, depending on their assessment of the relative yields of securities of different maturities and durations and their expectations of future changes in interest rates. • The Fund's benchmark index is the Markit iBoxx Asian Local Bond Index (the “Benchmark”). The Fund is actively managed, and the Investment Manager is not constrained by the Benchmark. The Investment Manager has discretion in selecting investments within the Fund's objective and investment policies. The Benchmark is used for performance comparison purposes and by the Investment Manager in measuring and managing investment risk. The Fund's investments will include components of the Benchmark, although the weightings of the Fund's holdings may differ materially from those of the Benchmark and will normally include instruments not included in the Benchmark. The Investment Manager may overweight such investments in the Benchmark and include other non-Benchmark instruments which it considers to offer more attractive risk/reward characteristics and may underweight or not invest at all in other Benchmark investments which the Investment Manager considers less attractive. The Benchmark is also relevant in defining the extent of permissible investments in certain sovereign issuers. • Due to the investment policies of the Fund, the Fund may have a particularly volatile performance.	in Paragraph 5.1 of the Prospectus for further information on the investment strategy of the product.
Parties Involved	
WHO ARE YOU INVESTING WITH? • The Fund is constituted under the Irish-domiciled Franklin Templeton Global Funds Plc. • The Manager of the Fund is Franklin Templeton International Services S.à r.l., the Investment Manager of the Fund is Western Asset Management Company Limited, the Sub-Investment Managers of the Fund are Western Asset Management Company, LLC and Western Asset Management Company Pte. Ltd., and the Depositary is The Bank of New York Mellon SA/NV, Dublin Branch.	Refer to the “The Company”, “Management” and “The Depositary” sections in Paragraphs 1, 3 and 4.4 of the Prospectus for further information on the role and responsibilities of these entities and what happens if they become insolvent.

KEY RISKS							
WHAT ARE THE KEY RISKS OF THIS INVESTMENT? The value of the product and its dividends or coupons (if any) may rise or fall. These risk factors may cause you to lose some or all of your investment and your principal may be at risk:	Refer to the "Risk Factors" section in Paragraph 8 of the Prospectus for further information on risks of the product.						
Market and Credit Risks							
• You are exposed to market risks in Asian markets – The value of your investments may go up or down due to changing economic conditions or developments regarding individual issuers of debt securities that the Fund invests in. • You are exposed to emerging markets risks – Investments in emerging market countries poses certain risks for example risks arising from economic and political factors, limited liquidity, higher price volatility, less developed disclosure, reporting and regulatory standards and custodial and/or settlement systems. • You are exposed to China market risks – The Fund invests in China and is subject to the risk of significant change in Chinese political, social or economic policy. • You are exposed to currency risks – An investment in the shares of the Fund (including hedged share classes) may entail exchange rate risks. If you invest in a share class that is not denominated in SGD and your reference currency is SGD, you may be exposed to additional exchange rate risks. • You may be exposed to risks of investing via Bond Connect.							
Liquidity Risks							
• The Fund is not listed in Singapore and you can redeem your shares only on Dealing Days – There is no secondary market in Singapore for the Fund. All redemption requests may only be made in the manner described in the Prospectus. • Your redemption request may be deferred to subsequent Dealing Days if total redemption requests on a Dealing Day exceed 10% of the Fund's shares in issue. • You will not be able to redeem your shares during any period where redemption is suspended.							
Product-Specific Risks							
• You are exposed to risks of debt securities as this is a fixed income fund – The value of debt securities is likely to decline in times of rising interest rates and vice versa. Other risks include liquidity risk, credit risk, risk of government securities, risk of high yield securities and risk of rated and unrated securities. • You are exposed to custody and settlement risks. • You may be exposed to concentration risks – A substantial portion of the Fund's investments may consist of securities of companies doing business in one industry or product field which could increase the potential for volatility and risk of loss, especially in periods of pronounced market volatility. • You are exposed to derivatives risks – Derivatives in general involve special risks and costs and may result in losses to the Fund. A liquid secondary market may not always exist for the Fund's derivatives positions at any time. In addition, over-the-counter instruments also expose the Fund to risk that a counterparty will not meet its obligations to the Fund which may cause the Fund to suffer a loss. • You are exposed to risks of convertible securities – The market value of convertible securities tends to vary when interest rates increase or decrease, and also varies with the fluctuations in the market value of underlying common stocks. There can be no assurance of capital appreciation through the conversion feature as securities prices fluctuate.
