KEY PRODUCT FEATURES

WHAT ARE YOU INVESTING IN?

- You are investing in an open-ended collective investment scheme constituted in Luxembourg as a UCITS that aims for capital appreciation and reorientation of capital towards sustainability through investing in companies that demonstrate their positive sustainable contribution.
- Under normal circumstances, you will receive regular distributions out of income depending on the distribution share classes you are investing in. Any distributions out of the capital of the Fund will reduce the NAV of the Fund.
- The Fund is an ESG Fund (as defined in the Circular No. CFC 02/2022 on Disclosure and Reporting Guidelines for Retail ESG Funds issued by MAS).

Refer to “Investment Objective, Focus and Approach of the Funds” section of the Singapore Prospectus, and the “Dividend Policy” section of the Luxembourg Prospectus.

Investment Strategy

- The Fund seeks capital appreciation and reorientation of capital towards sustainability through investing primarily in equity securities of companies (i) located or having their principal business activities in developing or emerging nations, which derive a significant proportion of their revenues or profits from emerging economies, or having a significant portion of their assets in emerging economies and/or are linked to assets or currencies of emerging nations and (ii) demonstrate good or improving sustainability criteria as defined by the Investment Managers’ binding ESG rating methodology.

Refer to “Investment Objective, Focus and Approach of the Funds” section of the Singapore Prospectus.

• Sustainability considerations form a core and necessary part of each company's investment thesis. ESG factors provide a measure of sustainability and this assessment of a company is carried out alongside traditional financial and economic analysis. The Fund conducts a rigorous and holistic 3-pillar ESG assessment on each company which measures: (i) Alignment of products and/or services to positive environmental and/or social outcome areas, (ii) Intentionality to maintain or improve the ESG footprint of the company's operating model, and (iii) Transition potential for improvement through the Investment Managers' engagement as active owners. The Fund's sustainable investment objective (within the meaning of Article 9 SFDR), the 3 pillars of this ESG assessment and additional ESG exclusions the Fund applies are detailed in Appendix G of the Luxembourg Prospectus attached to the Singapore Prospectus. • The Fund may also seek investment opportunities in other types of securities (e.g. preferred stock, participatory notes, securities convertible into common stock, American and Global Depositary Receipts, corporate and government debt obligations), and may invest up to 10% of its net assets in units of UCITS and other UCIs and up to 20% of its net assets in aggregate China A-Shares and China B-Shares. • The Fund may utilize financial derivative instruments for hedging and/or efficient portfolio management. • The expected level of exposure that could be subject to securities lending transactions amounts to 5% of the Fund's net assets, subject to a maximum of 50%.
