**PRODUCT SUITABILITY**

**WHO IS THE PRODUCT SUITABLE FOR?**

The Fund is only suitable for investors who:

- seek to invest in a Fund compliant with Article 8 of the SFDR;
- seek to maximise total investment return consisting of interest income and capital appreciation;
- seek to invest in debt securities of government and government-related issuers from member countries of the European Monetary Union; and
- plan to hold their investment for the medium to long term.

The principal may be at risk.

Further Information  
Refer to “Fund Information, Objectives and Investment Policies” of the Luxembourg Prospectus.

**KEY PRODUCT FEATURES**

**WHAT ARE YOU INVESTING IN?**

- You are investing in an open-ended collective investment scheme constituted in Luxembourg as a UCITS that aims to maximise total investment return consisting of interest income and capital appreciation by investing in debt securities of any issuer from member countries of the European Monetary Union.
- Under normal circumstances, you will receive regular distributions out of income depending on the distribution share classes you are investing in. Any distributions may also be made out of the capital, net realised and net unrealised capital gains as well as income gross of expenses of the Fund, which will reduce the NAV of the Fund.

Refer to “Investment Objective, Focus and Approach of the Funds” section of the Singapore Prospectus, and the “Dividend Policy” section of the Luxembourg Prospectus.

**Investment Strategy**

- The Fund will invest principally in investment grade obligations of governments, government-related issuers and supranational entities located throughout the European Monetary Union (Eurozone countries).
- It may also invest, amongst others, in debt obligations issued by governments, government-related issuers and supranational entities worldwide (limited to 15% combined limit for investments in securities issued by non-European Monetary Union issuers and issuers with rating of BB+ or below and Ba1 or below), credit-linked securities or other structured

<p>products that derive their value from an index, security or currency.</p> <ul style="list-style-type: none"> <li>• The Fund employs a proprietary environmental, social and governance (ESG) rating methodology with the aim to avoid investment in issuers that are lagging in the transition to support a low-carbon economy. The Fund's Environmental and/or Social characteristics (within the meaning of Article 8 SFDR) promoted are detailed in Appendix G of the Luxembourg Prospectus attached to the Singapore Prospectus.</li> <li>• The Fund may also utilize financial derivative instruments for hedging purposes and efficient portfolio management. These financial derivative instruments may be dealt on either (i) regulated markets, such as futures contracts (including those on government securities), as well as options or (ii) over-the-counter such as currency, exchange rate, interest rate and related swaps and forwards.</li> <li>• The expected level of exposure that could be subject to securities lending transactions amounts to 5% of the Fund's net assets, subject to a maximum of 50%.</li> </ul>

<b>KEY RISKS</b>	
<p><b>WHAT ARE THE KEY RISKS OF THIS INVESTMENT?</b></p> <p><b>The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment.</b></p>	<p>Refer to the "Risk Factors" section of the Singapore Prospectus and "Risk Considerations" section of the Luxembourg Prospectus.</p>
<b>Market and Credit Risks</b>	
<ul style="list-style-type: none"> <li>• <b>Your investments are subject to interest rate risk in countries of the European Monetary Union</b> – Movements in interest rates in the countries of the European Monetary Union may negatively affect the value of the Fund's investments in debt securities.</li> <li>• <b>You are exposed to credit risks of issuers</b> – If an issuer fails to make principal and interest payments when due, the value of your investment in such issuers will be adversely affected. This Fund invests principally in government securities where there is generally less risk of default than in the case of corporate securities.</li> </ul>	
<b>Liquidity Risks</b>	
<ul style="list-style-type: none"> <li>• <b>Your investments are exposed to liquidity risks of the underlying investments</b> – Under exceptional market conditions the manager may be forced to sell assets of the fund at a discount in order to meet continued redemption requests.</li> <li>• <b>The Fund is not listed, and you can realize your Shares only on Dealing Days</b> – There is no secondary market for the Fund. All redemption requests should be submitted in the manner set out in the Prospectus.</li> <li>• <b>Your realization request may be deferred or suspended</b> – Redemptions of Shares may be deferred when more than 10% of the value of the Fund's Shares are redeemed or exchanged on any one Dealing Day. circumstances as described in the Prospectus.																												
Product-Specific Risks																												
<ul style="list-style-type: none"><li><b>Your investments are exposed to debt securities risk</b> – Debt securities are sensitive to changes in interest rates, widening of credit spreads and defaults risk of issuers. A fixed income security’s value will generally increase in value when interest rates fall and decrease in value when interest rates rise.</li><li><b>Your investments are exposed to derivatives risk</b> – The Fund may invest in financial derivative instruments which may be purchased on regulated markets or over-the-counter and may have less liquidity and more volatility than conventional assets, exposing the Fund to higher risks and potential losses. When financial derivatives contracts are traded over the counter, the Fund may find itself exposed to risks arising from the solvency of its counterparties and from their ability to respect the conditions of these contracts.</li><li><b>You are exposed to counterparty risk</b> – When entering into over-the-counter bilateral contracts for derivatives used for hedging purposes, the Fund may find itself exposed to risks arising from the solvency of its counterparties and from their ability to respect the conditions of these contracts.</li><li><b>Your investments are exposed to concentration risk</b> – The Fund invests primarily in a single sector, market or region, and as a result is subject to higher concentration risk and potentially greater volatility compared to funds following a more diversified policy.</li></ul>
