KEY RISKS	
<p>WHAT ARE THE KEY RISKS OF THIS INVESTMENT? The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment.</p>	<p>Refer to the "Risk Factors" section of the Singapore Prospectus and "Risk Considerations" section of the Luxembourg Prospectus.</p>
Market and Credit Risks	
<ul style="list-style-type: none"> • Your investments are exposed to debt securities risk – Debt securities are sensitive to changes in interest rates, widening of credit spreads and defaults risk of issuers. A fixed income security's value will generally increase in value when interest rates fall and decrease in value when interest rates rise. • Your investments are exposed to currency risk – The Fund is exposed to the risk of loss arising from exchange-rate fluctuations or due to exchange control regulations. 	
Liquidity Risks	
<ul style="list-style-type: none"> • Your investments are exposed to liquidity risks of the underlying investments – Under exceptional market conditions the manager may be forced to sell assets of the fund at a discount in order to meet continued redemption requests. 	<p>Refer to the sections "Sale of Shares" and "Suspension of Valuation, Issue, Sale and Switching of</p>

<ul style="list-style-type: none"> • The Fund is not listed, and you can realize your Shares only on Dealing Days – There is no secondary market for the Fund. All redemption requests should be submitted in the manner set out in the Prospectus. • Your realization request may be deferred or suspended – Redemptions of Shares may be deferred when more than 10% of the value of the Fund’s Shares are redeemed or exchanged on any one Dealing Day. Your right to realize Shares may also be temporarily suspended under certain circumstances as described in the Prospectus. 	Shares” of the Singapore Prospectus.
---	--------------------------------------

Product-Specific Risks

<ul style="list-style-type: none"> • You are exposed to counterparty risk – When entering into over-the-counter bilateral contracts for derivatives used for hedging purposes, the Fund may find itself exposed to risks arising from the solvency of its counterparties and from their ability to respect the conditions of these contracts. • Your investments are exposed to derivatives risk – The Fund or underlying funds may invest in financial derivative instruments which may be purchased on regulated markets or over-the-counter and may have less liquidity and more volatility than conventional assets, exposing the Fund or underlying funds to higher risks and potential losses. When financial derivatives contracts are traded over the counter, the Fund may find itself exposed to risks arising from the solvency of its counterparties and from their ability to respect the conditions of these contracts. • Your investments are exposed to emerging markets risks – The Fund may invest in emerging markets which involve a greater risk of loss and are more volatile than investing in more developed countries due to, inter alia, greater political, tax, economic, foreign exchange, liquidity, volatility and regulatory risks.
